ABOUT THE CONFERENCE

The seminar focuses on Indian diaspora, representing the people who migrated from the Indian territories to the other parts of the world. It includes the descendants of these groups. Today, over twenty million Indians which include Non-Resident Indians and People of Indian Origin are residing outside the Indian territory as Indian diaspora. In recent years, the diaspora is influencing the economic, political and cultural affairs in their homeland. It is so because the influence of the diaspora communities increases as they organize themselves and accumulate resources in their host countries for several years. The mobilized diaspora are now influencing the affairs of the homeland countries. A common form of exchange is the financial remittances provided to the relatives by the diaspora community. Overseas family networks of the political elites in India are shaping the political landscape as well. Culturally, the diaspora is influencing the music and literature trends in India as the content is consciously structured to cater to the tastes of the diaspora.
